

Plus Care by Porter Hills

Providing services to simplify and enrich your life.

The Plus Care program is specifically designed to provide services that enhance the lifestyle of older adults who are living at Heron Manor.

Our goal is to offer an array of services that match residents' individual needs with their resources. These services are offered in short increments, our staff members are taught to maximize that time to accomplish the tasks that are requested.

All services are performed under the direction of a licensed nurse. Staff members are available 24 hours a day, seven-days-a-week to assist with the needs of residents.

Porter Hills has many other services available if needed such as, licensed nursing, health monitoring, mental health services, and transportation.

Stay right where you are and we will be there to serve you!
